Job Description – Full Stack.NET Developer

Job Title: Full Stack.Net Developer	Organisation: Destination2/HolidayGems
Reports To: Head of IT	**Location:** Chester Office, Elsmere Court
<u>**Salary:**</u> Competitive	<u>FTE:</u> 37.5 Hours per week (Permanent)

Who we are:

Destination2 Ltd and HolidayGems Ltd (www.destination2.co.uk / www.holidaygems.co.uk) are two unique and highly respected UK B2C online tour operating brands of which Travcorp Holdings Ltd is the holding parent company of the two trading arms.

Our inspirational businesses target different consumer markets. Destination2 focuses and capitalises on the continued growth in the luxury long-haul arena whilst Holiday Gems targets the short to medium-haul markets. Both brands operate nationwide appealing to a wide audience travelling from all major UK airports.

The vast majority of Destination2 and HolidayGems' technology is developed, owned and operated by ourselves, which affords us greater flexibility than our competitors. This being key in today's marketplace.

Who we are looking for:

We are looking for an experienced full stack .NET developer, who can work on both our back-end and front-end systems. You will be part of a small team that are responsible for the full software development life cycle, from conception to deployment of our 2 brand B2C websites and associated back office systems.

As a full stack developer, you should be comfortable around both front end and back end coding languages, development frameworks and third-party libraries.

Thorough knowledge of C#, Java Script, HTML/CSS is a must.

Key Responsibilities include:

- Participating in in the design and creation of scalable software
- Writing clean, and maintainable code, front and back end
- Build the front end in appealing visual design
- Build features and applications with a mobile responsive design
- Implement APIs
- Testing and bug fixes
- Troubleshoot, debug and upgrade software
- Create security and data protection settings

Skill/ Experience/ Knowledge

- Proven experience as a full stack developer or similar role
- Knowledge of HTML/CSS and JavaScript. Exposure to Angular or other modern JavaScript frameworks would be advantageous.
- Thorough knowledge of C#, .NET framework and ASP.NET is essential.   Exposure to .NET Core would be advantageous.
- Experience with any of MS SQL, ADO.NET, Dapper, or entity framework.
- Any experience with webservers (Window server/Linux), CI/CD Tools (Team City/Octopus) would be an advantage
- Any experience of integrating REST/SOAP APIs would be advantageous.

Personal Qualities:

- Analytical thinker
- Effective communication and interpersonal Skills
- Excellent attention to detail
- Strong organizational skills
- Positive team player
- Approachable, adaptable, and Flexible
